**FOR IMMEDIATE RELEASE**

## **Interstate 5 Traffic Detour**

**REDDING** – Motorists on Interstate 5 approaching the Sacramento River Bridges replacement project north of Anderson will be subject to one-way traffic controls on **Friday night, October 26 beginning at 8:00 PM.** The traffic controls will be in effect until 8:00 AM Saturday, October 27. Construction crews and equipment from Shasta Constructors, of Redding, will be pouring concrete closures, connecting the new pre-cast concrete girders recently placed atop columns constructed between the existing bridges.

Both north and southbound traffic will be detoured at traffic control stations. Northbound motorists will be diverted to the southbound lanes over a newly constructed crossover that has been paved in the median sections on both ends of the bridges. Southbound motorists will be restricted to a single lane. Motorists will be led by a pilot car at a reduced speed through the work zone.

Motorists are asked to reduce their speed and drive with caution when approaching the construction zone.
